contrasting songs, ideally with the backing track. You will also be asked to perform a few short exercises.

It is expected that singers will harmonize in tune, participating with the musical director's instruction. It is hoped these groups will nurture a sense of dignity and individual worth building a strong sense of ensemble, rather than feeding the ego. Character qualities of goodness, humility, generosity, patience, kindness and encouragement will be fostered.

That we exist to help liberate those trapped in poverty will continually remind us that this journey of taking on challenges and overcoming obstacles is not about us. It will give us the strength to persevere, the courage achieve and the wisdom to shape our dreams.

Performance opportunities will occasionally require singers to fundraise a minimum of \$20 towards www.compassion.com in order to participate; ensuring we achieve what we aim to.
